CATTLE ALLEY THAT PREVENTS TURNING AROUND AND FALLING

The Easy Flow Elite Adjustable Cattle Alley is designed for ranchers who need safe, low-stress cattle flow and quick, reliable control in their handling system.

Arrowquip's improved Easy Flow Elite Adjustable Cattle Alleys are designed to be safer, quieter, and more efficient than your typical cattle alley. Cradle-shaped and fully adjustable, this alley can accommodate cattle of any size with easy adjustments.

Featuring spring-loaded locking systems and safety latches, you can quickly modify the width of the alley from one side by simply pulling on the adjustment cables. Adhering to low-stress cattle handling principles, the Easy Flow Elite Cattle Alley has caulked flat sheeting and nylon bushings over the slam-latch pins to reduce noise.

The Easy Flow Elite Cattle Alleys are also equipped with the 3E: Easy Entry and Exit System. Cattle only see what you want them to see in the Easy Flow Alleys. By modifying the panel sides to your preference, pressure zone handling techniques can be applied to regulate flow with ease. For further customization and control, rolling alley gates and kicker panels can also be added to create the alley system of your dreams. There are infinite configurations possible to suit your needs.

With easy adjustments, excellent animal control, and the utmost in animal safety, the Easy Flow Elite Adjustable Cattle Alley is designed to provide increased efficiency in your complete cattle handling system.
